Build Day 2024 – Greater Boston Habitat for Humanity

A group of Boyle | Shaughnessy employees recently volunteered with Habitat for Humanity of Greater Boston. The group assisted with building the interior of a multi-unit home in Malden. We unloaded nearly 10 tons of drywall through the second story windows of the home. It was heavy work, but a great day of teamwork and giving back to our community.

Habitat for Humanity's vision is a world where everyone has a decent place to live. With more than 1,400 local affiliates in the United States and 70 national organizations around the world, Habitat has helped over 6.8 million people improve their living conditions. They carry out their vision with the help of volunteers and donations that provide vital support for their efforts. Habitat for Humanity provides simple, decent and affordable housing to low-income families around the world.
